

## Features

- Ultimate modularity and standardized design
- PACK and PCS dual channel liquid cooling
- Flexible layout combination, support 25.6MWh solution to 3.13MWh per 20' foot combination 3.13 megawatt hours
- BMS, PACK, Cabin, three level safety protection, mechanical data exchange warning
- Battery, PACK, Cabin, three level pressure relief, explosion-proof
- Networked, EMS energy management, and cloud-based big data lifecycle management based on the EESS fully digital concept
